Good luck to them all.

Victor Yen if he were alive today would be honored by these winners. He too was an excellent student who received a BS degree from the University of Redlands and received a MS in Aeronautical Engineering from California Institute of Technology. He taught Engineering at Tri-State College in Indiana and later worked in industry at Ford Motor Company, OCLI, Optoelectronics and Cal Sensors before founding Electro Optical Components in 1997. He was a pioneer in the Infrared Filter and Detector industry.
