## FEMTO HSA-X GHZ Amplifiers Now Have Increased Bandwidth

The well proven FEMTO GHz amplifier series HSA-X has been redesigned with bandwidths up to 2.5 GHz. For all HSA-X amplifier model the bandwidth has been extended. The 2 GHz models now have 2.2 GHz bandwidth at 40 dB gain and a 2.5 GHz bandwidth at 20 dB gain.

FEMTO's signal recovery amplifier products are distributed in North America by **Electro Optical Components Inc.**
