## **Genicom introduces a Compact Digital UV Sensor**

Genicom has developed a compact digital UV sensor. The GaN sensor measures UV only, blocking visible light. It has 16 bit resolution, programmable gain and integration time. This low cost, compact UV sensor comes in a tiny SMD COB package (2.0 x 2.3 mm), great for portable applications.

Applications for this include cellphones, wearable devices, watches, weather stations, cycle navigation gaming accessories and IoT products.

Genicom GaN UV detector products are distributed in North America by:

Electro Optical Components Inc.
